Corporate Social Responsibility & Volunteer Time off Policy

TTC recognise the business benefits of being more socially responsible and investing positively in community engagement. TTC play a full and active part in prioritising a company culture which fosters Corporate Social Responsibility (CSR) and recognises, rewards and encourages employees at all levels to make an active contribution within the Shropshire and wider communities which we contractually serve.

We work hard to develop good relationships with clients, employees, communities and the environments in which we operate. We support a number of worthy causes and we use our knowledge and skills to provide practical support to charities and community projects. We also support our clients' charitable activities through participation and sponsorship.

We actively encourage our employees to get involved in volunteering activities by giving each employee one days paid leave each year to offer their support to an organisation of their choice.

Annually, our owners and staff are regularly invited to nominate a charity on which to focus our fundraising activities. We have also developed responsible business practices through our associated Environmental Policy and regularly reviewing our carbon footprint through our Managing Work-Place Road Safety Policy in consideration of initiatives to minimise the impact of our business on the world around us.
